### PART 2: INSTRUCTOR COMMENTS & RECOMMENDATIONS

Please specify student's specific strength(s) and area(s) s/he needs to improve.

Strengths:	
<b>Speaking</b>	<p>This month we have learned: The Vast Territory, Administrative Areas and Populations, Industry, Agriculture, and transportation, Weather and Natural Disasters in China, Environmental Pollution and Protection We also studied Supplementary Materials CM 240 China's Geography and History. China's territory and neighboring countries, China's topography and climate, China's rivers and lakes, China's major cities, China's scenic spots, the origin of the Chinese nation, the Western Dynasty, the Eastern Dynasty, the Qin and Han Dynasties, the Tang and Song Dynasties, the Yuan, Ming and Qing Dynasties, a century of humiliation, national rejuvenation, China's traditional economy and modern economy...</p> <p>She is able to talk about these topics in a short report. Her speaking's foundation is relatively solid, and she is becoming more and more fluent, natural, and sometimes authentic. She tries to use grammar and vocabulary boldly. In addition, we have made some short reports on formal topics and current events news. For example, Election, American insurance, Tell us the procedure for buying insurance in the U.S. (medical, car, life, house), Climate change, America's racial issue, The Chinese government has proposed the policy of "peaceful reunification and one country, two systems" to resolve the Taiwan issue, Advantages and disadvantages the America's population, America's industry develop situation, Explain your opinion on the current economic situation in the United States, Climate Change and Natural Disasters in US, Take Russia-Ukrainian and Israel-Hamas Wars as an example talk about your opinion about war, America human right situation,: Please comment on violent crime and gun reform in the United States, The development of modern information science and technology has had a significant impact on human life. Please explain your views and opinions.</p> <p>Through cold reading and cold listening exercises, she expanded the use of formal high-frequency words, thereby improving her speaking level.</p>

Reading	<p>This month we have learned: The Vast Territory, Administrative Areas and Populations, Industry, Agriculture, and transportation, Weather and Natural Disasters in China, Environmental Pollution and Protection. We also studied Supplementary Materials CM 240 China's Geography and History. China's territory and neighboring countries, China's topography and climate, China's rivers and lakes, China's major cities, China's scenic spots, the origin of the Chinese nation, the Western Dynasty, the Eastern Dynasty, the Qin and Han Dynasties, the Tang and Song Dynasties, the Yuan, Ming and Qing Dynasties, a century of humiliation, national rejuvenation, China's traditional economy and modern economy...</p> <p>She read a lot of articles about official and current news, such as elections, government agencies, climate change, economy, population, environment, pollution, geography, Xinjiang issues, Tibet issues, Taiwan issues, South China Sea issues, Russia-Ukraine war, Israel-Palestine conflict, important international conferences, US-China trade war, gun control reform, rampant violence and other topics of background knowledge and latest news.</p> <p>Through learning and practice, she improved her reading comprehension and fluency on these topics so as to reach a higher level of reading. She is trying to use reading skills and strategies to understand the main idea, most details and also trying to use guessing skills to understand the article.</p> <p>Through cold reading exercises, she improved her understanding of formal topics and current news</p>
Listening	<p>This month we have learned: The Vast Territory, Administrative Areas and Populations, Industry, Agriculture, and transportation, Weather and Natural Disasters in China, Environmental Pollution and Protection. We also studied Supplementary Materials CM 240 China's Geography and History. China's territory and neighboring countries, China's topography and climate, China's rivers and lakes, China's major cities, China's scenic spots, the origin of the Chinese nation, the Western Dynasty, the Eastern Dynasty, the Qin and Han Dynasties, the Tang and Song Dynasties, the Yuan, Ming and Qing Dynasties, a century of humiliation, national rejuvenation, China's traditional economy and modern economy...She listened to and watched a lot of videos about official and current news, such as the election, government agencies, climate change, economy, population, environment, pollution, geography, Xinjiang issue, Tibet issue, Taiwan issue, South China Sea issue, Russia-Ukraine war, Israel-Palestine conflict, important international conferences, US-China trade war, gun control reform, rampant violence and other topics of background knowledge and latest news.</p> <p>Through learning and practice, she was helped to improve her listening comprehension and fluency on these topics so as to reach a higher level of listening.</p> <p>She is trying to use listening skills and strategies to understand the main idea, most details and also trying to use guessing skills to understand the article.</p>

	Through cold listening practice, she improved her understanding of formal topics and current news.
<b>Other Skills</b>	She worked very hard to complete the homework on formal topics and current events background knowledge given by the teacher, such as 5G, artificial intelligence, cloud computing, quantum technology, etc. She has strong self-study ability. She helps his classmates in class.

Needs Improvement:	
<b>Speaking</b>	She also needs to pay more attention to sentence structure. She also needs to be more fluent and natural.
<b>Reading</b>	She needs to read more formal topics and current affairs articles, and master and apply reading strategies to understand the articles. Improve the ability to guess.
<b>Listening</b>	She needs to listen to more formal topics and current affairs articles, and master and use listening strategies to understand the articles. Improve the ability to guess.
<b>Other Skills</b>	She needs to be more relaxed, She also needs to improve the accuracy of listening, speaking and reading .

Please attach a remedial plan to this document, if necessary.

	Exceeds Expectations	Meets Expectations	Approaching Expectations
<b>Attitude &amp; Engagement</b>	<input checked="" type="checkbox"/> Fully engages in all learning tasks and activities and meets all class objectives.	<input type="checkbox"/> Typically engages in all learning tasks and activities and generally meets the intent of class objectives.	<input type="checkbox"/> Attempts to do some learning tasks and activities but avoids some and occasionally does not meet the class objectives.
<b>Class Participation</b>	<input checked="" type="checkbox"/> Always contributes to class tasks and stimulates discussion.	<input type="checkbox"/> Usually contributes to class tasks and regularly participates in discussions.	<input type="checkbox"/> Occasionally contributes to class tasks and sometimes participates in discussions.
<b>Assignments (includes homework)</b>	<input checked="" type="checkbox"/> Excellent quality and completed on time. Most assignments exceed requirements.	<input type="checkbox"/> Satisfactory quality and completed on time in most cases. Most assignments meet requirements.	<input type="checkbox"/> Inadequate quality and often misses deadlines. Most assignments are incomplete and do not meet requirements.

#### Additional Comments and Recommendations:

She is a very good student. She studies hard and take it seriously. She did the perfect job as a class leader. Her Chinese level has improved day by day. 加油 !
